## RENATA PFUNER EDUARDO BUSSO

PFUNER BUSSO DESIGN, INC.

The design for the Liquid Mist bathroom was influenced by the Istanbul line for Vitra, designed by Ross Lovegrove. Pfuner and Busso recognized the connection to Miami in its sensual shapes and organic forms. The natural flow, sculptural shapes, reflective surfaces and colorful lighting found in the space are inspired by the element water and its role in our lives. "We elevated the purpose of a bathroom to a new level and created a space that indulges and inspires to linger, relax and enjoy."
