Visitors to this Jade Ocean penthouse suite, conceived by Renata Pfuner of **Pfuner Design** in Miami, encounter pure symmetry. Taking one step at a time, the viewer is guided through a doorway with a pattern of contrasting Calacatta marble, custom woodwork, and textured walls that provide subtle but important components to the design style. A stunning chandelier by Nulco hints at the beauty within.

Ice is the first impression of the glistening entrance that pulls you into the high-styled, contemporary-yet-glamorous space in this Palm Beach oceanside estate by **Fran Murphy Interiors** of Juno Beach. A sweeping glass staircase right out of a Ginger and Fred movie, along with sky-high ceilings for palatial drama, make this all-glass and marble structure true to the dramatic style that has become Murphy's signature.
